

## **SIDNEY COMMUNITY ASSOCIATION**

### **WHO WE ARE**

**The Sidney Community Association is a registered BC Society. Members are Sidney residents and friends who want to be informed and involved in shaping the community we live in. We are dedicated to enhancing transparency and accountability of municipal governance and advocating for adherence to the Official Community Plan (OCP). We believe in respectful, constructive discussion about municipal affairs in the Town of Sidney.**

### **WHAT WE DO**

- 1. We present speakers about topics that are important to the Sidney community.**
- 2. We attend Town of Sidney Council and Committee of the Whole meetings; summarize the proceedings and email the summaries to our members.**
- 3. We find out as much as possible about issues the Town is dealing with, and share that information with our members in plain language.**
- 4. We bring the concerns of our members to the attention of the Town Council. This often takes the form of asking the Town to consult with residents and/or provide more information.**
- 5. We welcome new members. The more members we have, the more effective we can be.**
